The absorption of electromagnetic radiation by water depends on the state of the water.. The absorption in the gas phase occurs in three regions of the spectrum. Rotational transitions are responsible for absorption in the microwave and far-infrared, vibrational transitions in the mid-infrared and near-infrared. Vibrational bands have rotational fine structure.

Electromagnetic absorption by water - Wikipedia

In addition to changes in nursing practice and education, discussed in Chapters 3 and 4, respectively, strong leadership will be required to realize the vision of a transformed health care system. Although the public is not used to viewing nurses as leaders, and not all nurses begin their career with thoughts of becoming a leader, all nurses must be leaders in the design, implementation, and ...
