In mathematics, an inequality is a relation that holds between two values when they are different (see also: equality).. The notation $a \neq b$ means that a is not equal to b .; It does not say that one is greater than the other, or even that they can be compared in size. If the values in question are elements of an ordered set, such as the integers or the real numbers, they can be compared in size.

Inequality (mathematics) - Wikipedia

A multiple sequence alignment (MSA) is a sequence alignment of three or more biological sequences, generally protein, DNA, or RNA. In many cases, the input set of query sequences are assumed to have an evolutionary relationship by which they share a linkage and are descended from a common ancestor. From the resulting MSA, sequence homology can be inferred and phylogenetic analysis can be ...

Multiple sequence alignment - Wikipedia

At its heart, coding is expression and problem solving. You can focus on its applications, on programming languages, but no matter how you practice it, you'll cultivate these two essential skills, which will help you in all aspects of life.
